EDUCATION

July 2020-June 2024

Undergraduate

Western Mindanao State University

Bachelor of Science in Computer Science

June 2018-March 2020

Secondary Education

Ayala National High School

Senior High School
Humanities and Social Sciences

June 2014- March 2018

Secondary Education

Ayala National High School

Junior High School

WORK EXPERIENCE

Inteltek Corporation, 2022 - 2023

Project Manager

Inteltek Corporation is a mean for applying computer science knowledge for developing software. The company developed a management website for Proton Tech Electronics Services.

- In charge of the planning, scheduling, budgeting, execution, and delivery of software project.
- Supported other members in their respective roles.

UI/UX Designer

- Assisted the company's developer in the design and defines the interaction between the user and the interface elements.

Quality Assurance

- Created a testing plan and software evaluation tool to identify and prevent defects, errors, and inconsistencies in the website.
- Took the lead in testing the website.

Thesis, 2023 - 2024

UI/UX Designer

A Thesis project for Bachelor of Science in Computer Science. The aim is to develop an application called SubMate that utilizes speech-to-text and text-to-speech technology in real-time to aid the communication of users.

- Conducted a user-based research to understand user preferences.
- Responsible for designing the prototype of the SubMate.

June 2008-March 2014

Primary Education

Recodo Elementary School

SKILLS | EXTRAS

- Technical Skills
- Project Management
- Research
- User Interaction Design
- User Interaction Design
- Quality Assurance

LANGUAGES

- Advance Conversational

TRAININGS/SEMINARS

Google Developer Groups DevFest 2022

November 26, 2022

DevFest is an annual technology conference that covers important topics for the tech community. This is a global celebration and demonstration of the Google Developer Team's impact on developers, with the goal of assisting developers in learning and connecting as a community by discovering how to use Google technology to accelerate local economic impact.

Network Defense Essentials (NDE)

November 5, 2022

Network Defense Essentials (NDE) refers to a set of fundamental practices and strategies employed to protect computer networks from various security threats and attacks. It encompasses a range of techniques and measures designed to secure network infrastructure, data, and systems from unauthorized access, malicious activities, and potential vulnerabilities.

Digital Forensics Essentials (DFE)

November 5, 2022

Digital Forensics Essentials (DFE) refers to the core principles, methodologies, and techniques used in the field of digital forensics. Digital forensics involves the investigation, analysis, and preservation of digital evidence to support legal proceedings or incident response. DFE focuses on the fundamental knowledge and skills necessary to conduct effective and reliable digital forensic investigations.
